## Top Tips

The secret is practising little and often. You don't need to practise these all at once, perhaps you could have a fact of the day. Can you practice these Quick Recall Facts whilst going to school? Or on a car journey?

- Play games - role a dice and double the number to see how many jumps you do.
- Use practical resources - Your child has one carrot on their plate and you give them three more, can they predict how many they will have now?
- Online - Go to <http://www.ictgames.com/bridgedoubles.html> to see how many bridges you can make for doubles.
- Online - Go to <http://www.iboard.co.uk/activity/Alien-Pairs-to-5-2316> to see how many number bonds you can do one minute.
